47. Freedom
48. Proud

## PROBLEM:

Create a folder full of varied digital images that you have taken. You will edit those images in Photoshop.

## SOLUTION

1. Use your digital Camera to find the images listed. You can take multiple shots of the same image. A minimum of 36 different items on the list are required.
2. Make sure that all of your images are in focus and well lit.
3. Upload images into your folder.
4. You should have 2 subfolders. Subfolder #1 will have all of your unedited images in it. Call this Scavenger Hunt.
5. Subfolder #2 should be called Scavenger Finals. It should contained 5 edited images. Your 5 best from the scavenger hunt.

### TIPS

1. Think outside the box! Don't just photograph the obvious.
2. ALWAYS check your light meter!!!!
3. Use the rule of thirds!
4. Dead center is dead!
